

Track Pads & Tire-and-Wheel Assemblies

Complete Chain Program

DRILLING | TRENCHING | ROAD REHABILITATION

Now available from Kennametal:

Track Pads and Tire-and-Wheel Assemblies!

For more than 40 years, Superior has set the quality and durability standard for OEM and aftermarket rubber and polyurethane heavy-equipment components. All products come with a 100% work-life guarantee, including Superior's world-renowned CUSHOTRAC™ track pad line that has delivered the road-milling industry's absolute best protection against wear in even the most demanding operating conditions.

CUSHOTRAC™ Bolt-to-Shoe Track Pad

Polyurethane style pad easily attaches to your grouser shoes and is backed by Superior's unique steel-on-steel contact technology that virtually eliminates loosening and vibration, major causes of premature wear. No need to buy new grouser shoes!

CUSHOTRAC™ Bolt-to-Shoe Extreme™ Track Pad

Rubber style pad is impregnated with wire shards to effectively combat chunking and punctures that lessen service life. Made with natural rubber, these pads provide ultimate resistance to noise, tearing, and abrasion versus synthetic materials. Excellent for deep-cutting and high-speed applications. Also employ Superior's steel-on-steel contact technology.

NEW!

CUSHOTRAC™ Mold-On Track Pad

Adhere directly to your grouser shoes with Superior's proprietary mechanical steel-tab bond that facilitates maximum fit and performance, no matter how challenging the job.

Tire-and-Wheel Assembly

If you operate a rubber-tire milling machine or other specialized equipment, Kennametal now offers complete Superior simple-to-install tire and wheel assemblies.

Complete chain assemblies also available!

Ask your local Kennametal representative for complete details.

Proven in the Field...

“These track pads held up extremely well – off the road and on. We’re installing them on all our fleet.”

– Dewey Sheppard, CI Hughes Construction Company

“The value is evident in these products. They save us money in the long run... and are the best poly pads out there.”

– Mike Hampton, Pavement Recycling Systems

“We rely on these proven products. Downtime is a killer in this business, but these pads are always in stock.”

– Tim Lamantia, Donegal Construction Company

Kennametal

The proven global leader in the design, manufacture, implementation, and sale of premium-quality tooling systems for underground and surface mining, road rehabilitation, aggregates production, and waste recycling!
